1	RPA Demo	<ul style="list-style-type: none"> • RPA Introduction • RPA Tools in the Market • UiPath Components • UiPath Software Installation • Types of applications can be automated
2	UiPath Interface, Workflows	<ul style="list-style-type: none"> • UiPath Ribbons, Panels • Types of workflows • Sequence • Flowchart • State Machine • Re-Frame Work
3	UiPath Core Activities	<ul style="list-style-type: none"> • Package Install /uninstall • UI Automation Activities
4	Variables, Data Types	<ul style="list-style-type: none"> • What is variable? • Types of variables • Data Types of variables • Assign values to variables • Variable scope
5	Basic Activities 1	<ul style="list-style-type: none"> • If activity • While • Do While • For Each • Switch
6	Basic Activities 2	<ul style="list-style-type: none"> • Flow decision • Flow Switch • Flow Chart
7	Invoke Activities	<ul style="list-style-type: none"> • Invoke workflow file • In • Out • In Out • Invoke Code • Invoke Method
8	Excel, Workbook and Data Table	<ul style="list-style-type: none"> • Data Table Activities • Excel Activities • Work book Activities • Relation between Data Table & Excels
9	Recording	<ul style="list-style-type: none"> • Basic • Desktop • Web • Citrix
10	Application Manual Process	<ul style="list-style-type: none"> • Desktop manual process • Web manual process • Citrix manual process
11	POC	<ul style="list-style-type: none"> • Desktop App POC

12	Advanced UI Interaction, Selectors	<ul style="list-style-type: none"> • About Selectors • Selectors with Wildcards • Full versus Partial Selectors • UiPath Explorer • Image and Text Automation
13	Screen Scraping Methods	<ul style="list-style-type: none"> • Full Text • Native • OCR
14	Data Scraping	<ul style="list-style-type: none"> • Extract Table data • Extract similar data across Multiple Pages
15	PDF	<ul style="list-style-type: none"> • Open PDF Applications • Extract fields from PDF • PDF Activities • Scan pdfs with Abbyy Cloud Ocr
16	String Methods	<ul style="list-style-type: none"> • Split • Replace • Index Of • Sub String
17	Files and Folders	<ul style="list-style-type: none"> • Create Directory, File • Delete file • Copy file • Open each file from given location
18	Email Automation	<ul style="list-style-type: none"> • Web incoming and Outgoing Mails • Outlook Incoming and Outgoing Mails • Exchange Incoming and Outgoing Mails
19	Debugging & Exception Handling	<ul style="list-style-type: none"> • Step by step execution • finding validation errors • Types of exceptions
20	SAP Automation	<ul style="list-style-type: none"> • Launching SAP Application • Updating settings in SAP client and Server • Sample workflow on SAP
21	Citrix\Remote Desktop Automation	<ul style="list-style-type: none"> • Introduction of Citrix • Open application in Remote system • Handle controls in Remote system
22	Web Services	<ul style="list-style-type: none"> • What is Web Service? • Web Activities • Examples
23	Parallel Activities	<ul style="list-style-type: none"> • Parallel for each • Parallel
24	Data base Activities	<ul style="list-style-type: none"> • Establish connectivity • Retrieving data • Data Updation

25	Ui Automation	<ul style="list-style-type: none"> • Find image • Image exists • Anchor base • Retry scope
26	XML Automation	<ul style="list-style-type: none"> • Xml Activities
27	Application Integration	<ul style="list-style-type: none"> • Ms-Word • CSV • Text Files
28	Libraries	<ul style="list-style-type: none"> • Reusable component creation • Installation
29	Custom activity	<ul style="list-style-type: none"> • Custom activity creation • Installation
30	Re-Framework	<ul style="list-style-type: none"> • What is Re-frame work? • Advantages of Re-Frame work • Re-frame work Implementation • Sample Project
31	Orchestrator	<ul style="list-style-type: none"> • Project Publish / deployment • Create an Robot and environment • Connection b/w UiPath Robot and Orchestrator • Creating job • Job Execution • Job Scheduling • canceling and terminating jobs • How the job queue works, handling pending jobs • How to monitor of all Robots registered to the Orchestrator <ul style="list-style-type: none"> • How levels of error messages are communicated • What are UiPath Orchestrator assets? • How to store credentials in the Orchestrator • What are Orchestrator queues? • How to use queues to work with lists of items that are handled by Robot
32	Project -Explanation	<ul style="list-style-type: none"> • Real Time Use cases • Project Description • Project workflow Template • Project Timelines • Challenges Faced while BOT development
33	Resume Preparation	<ul style="list-style-type: none"> • Professional Summary • Roles and Responsibilities of a RPA Developer • Consultancy Details
